community of license without affording interested parties an opportunity to file competing expressions of interest if (a) the proposed community of license is an identifiable community; (b) the new allotment would be mutually exclusive with the old allotment; (c) looking at the totality of factors, the new allotment would result in a preferential arrangement of allotments; and (d) the relocation would not deprive a community of its sole local transmission outlet. *See Modification of FM and TV Authorizations to Specify a New Community of License*, 4 FCC Rcd 4870 (1989) (“*Community of License Change Order*”), recon. granted *in part*, 5 FCC Rcd 7094 (1990) (“*Community Recon Order*”); *LaGrange and Rollingwood, Texas*, 10 FCC Rcd 3337 (1995). The community of license change proposed by Clear Channel would satisfy all of these criteria.

I. Morrison Is a Community Deserving of an FM Channel Allotment.

Morrison, Tennessee, is ~~an~~ incorporated town with a population of 684 persons according to the 2000 U.S. Census. *See* Exhibit B attached hereto. Located in Warren County, Morrison, which was established in the early 1900s, has its own Zip Code (37357), post office, library and several major businesses. Morrison is governed by a Mayor and five Aldermen. Morrison also has a city recorder and a public works director. Morrison contracts for its own water, electric and sewer services, and is served by its own local volunteer fire department with two fire houses and approximately 20 firefighters. Although Morrison does not have its own police department, it is served by the Warren County police force as opposed to relying on a nearby town or city for police service. Morrison also receives ambulance service from Warren County; however, the Morrison fire department leases space at one of its fire houses for the Warren County ambulance facilities that serve Morrison.

Morrison residents support several churches (including two Churches of Christ, Morrison First Baptist Church and Morrison Methodist Church). The Morrison Church of Christ erected its original building in 1895. Morrison also has a bank (First National ~~Bank~~), a credit union

(Beacon Federal Credit Union), and an accounting service (Brachter's Tax Service). Morrison is also home to a promotional product retailer (Action Advertising), a router and spindle manufacturer (Accu-Router, Inc.) and a door and awning retailer and servicer (Dakota Door Sales). Morrison also has a food market (Morrison Market), several restaurants (Prater's BBQ, Summitville Café, Sunshine Café and Uncle John's Kitchen), four car dealers (one of which also rents cars), a U-Haul truck rental facility, five auto repair shops and three gas stations. Morrison is also home to a real estate agent, an apartment complex (Morrison Village Apartments), a bed and breakfast (Inn at Harvest **Farm** Lake), a landscaping company, a termite and pest control company, and several storage, self-storage and warehouse facilities. Five beauty shops and the Pioneer Gun Shop are also located in Morrison.

Morrison also has two community centers (Viola Community Center and Pocahontas Community Center), a youth home (Sunny Acres Home for Children), a specialized housing facility for the mentally ill (Generation Center of Morrison), and a family therapist. Additionally, Morrison has its own elementary school (Morrison Elementary School).

Morrison is also home to major businesses. The Carrier Corporation, manufacturer of heating, ventilation and air conditioning products, has a manufacturing plant in Morrison. The Morrison facility employs approximately 1300 individuals. **Also**, the Bridgestone-Firestone Companies have a tire plant in Morrison. The Morrison plant produces truck and bus tires and has manufacturing and warehouse facilities. Morrison representatives estimate that at least 2000 employees work at the Morrison Bridgestone-Firestone plant.

Morrison easily satisfies the criteria for a "community" deserving of an FM allotment, possessing a greater population and more community attributes than many communities to which the Commission has allotted channels in the past. *See Blanket, Texas*, DA 03-155, MB Docket

No. 02-351, RM-10601 (rel. Jan. 17, 2003) (allotting channel to Blanket, “population of over 442 people”); *San Isidro, Texas*, 2002 FCC LEXIS 6503, MM Docket No. 01-305, RM-10310 (rel. Dec. 9, 2002) (allotting channel to San Isidro, population 208). Under these circumstances, Morrison is unquestionably a community and is entitled to its first local transmission service.

II. The New Allotment Is Mutually Exclusive With the Existing Allotment.

WRKK-FM is licensed to operate on Channel 288A (105.5 MHz) at Sparta. Clear Channel proposes to delete Channel 288A at Sparta and add Channel 287A at Morrison, with a corresponding change in transmitter site. Channel 287A can be allotted to Morrison in conformity with the minimum spacing requirements of Section 73.207(a) of the Commission’s rules. *See* Technical Exhibit by Stephen G. Davis (attached hereto as Exhibit A), at 3. The minimum required spacing between first adjacent Class A stations under the Commission’s rules is 72 kilometers. *See* 47 C.F.R. § 73.207(a). Because the proposed Morrison reference point is located only 48.38 kilometers from WRKK-FM’s authorized site at Sparta, the new allotment would be mutually exclusive with the existing allotment. Exhibit A, Figure 1.

III. The Proposed Change Would Result in a Preferential Arrangement of Allotments.

There are no radio or television stations licensed to Morrison; WRKK-FM would be the community’s first local transmission service. Following WRKK-FM’s reallocation to Morrison, Sparta would continue to be served by stations WSMT(AM) and WTZX(AM), Sparta, Tennessee. Thus, the reallocation of WRKK-FM to Morrison will not remove Sparta’s sole local transmission service.

Deleting Channel 288A at Sparta and adding Channel 287A at Morrison will result in a preferential arrangement of allotments.’ Retaining the Channel 288A allotment as a third local

¹ The Commission’s allotment priorities are (1) first full-time aural service; (2) second full-time aural service; (3) first local service; and (4) other public interest matters. Equal weight is given to priorities (2) and (3).

service at Sparta would serve priority (4), other public interest matters, while adding Channel 287A at Morrison would serve priority (3) by providing a first local transmission service to that community. WRKK-FM's current predicted 1 mV/m (60 dBu) service contour at Sparta encompasses 2,460 square kilometers and 42,762 persons. From Morrison, WRKK-FM's predicted 1 mV/m service contour would encompass 2,460 square kilometers and 73,493 persons, a net gain of 30,731 persons. See Exhibit A at 4. While the proposed reallocation will result in loss of service to 40,009 persons in WRKK-FM's current service area, service by over 30 stations that cover portions of the loss area will ensure that the area will continue to be "well-served." See *LaGrange and Rollingwood*, Texas, 10 FCC Rcd 3337 (1995) (a community is "well-served" if it receives at least five aural services); Exhibit A at 5 and Figures 3 and 4.

IV. Tuck Analysis **Not Required**

Morrison is not located within any census-designated Urbanized Area. From the proposed transmitter site in Morrison, WRKK-FM's predicted 70 dBu contour would encompass no part of any Urbanized Area. See Exhibit A at 4. Because WRKK-FM would not be within an Urbanized Area or cover more than 50% of an Urbanized Area with its 70 dBu contour, no analysis is required to determine Morrison's independence from a central city as set forth in *Faye & Richard Tuck*, 3 FCC Rcd 5374 (1988).

CONCLUSION

Morrison, Tennessee is a community of 684 residents deserving of a first local transmission service. By reallocating WRKK-FM to Morrison, Clear Channel proposes a net service gain of over 30,000 persons. The new allotment is mutually exclusive with WRKK-FM's existing facilities in Sparta and would result in a preferential arrangement of allotments.

Sparta will continue to have local transmission service. Finally, the persons losing predicted service from WRKK-FM as a result of the reallocation will remain well-served by other existing services.

Accordingly, Clear Channel requests the Commission to initiate a rulemaking proceeding to delete Channel 288A at Sparta and add Channel 287A at Morrison as set forth below:

Channel Number		
Community	Present	Proposed
Sparta, Tennessee	288A	--
Momson, Tennessee	----	287A

Clear Channel will file an application for Channel 287A at Momson if the channel is allotted to that community and, upon grant of a construction permit, will promptly construct and operate a WRKK-FM facility on Channel 287A at Morrison.

Respectfully submitted,

CLEAR CHANNEL BROADCASTING LICENSES, INC.

TECHNICAL EXHIBIT

TECHNICAL EXHIBIT

PETITION FOR RULE MAKING
TO AMEND THE FM TABLE OF ALLOTMENTS

SPARTA, TENNESSEE
MORRISON, TENNESSEE

Technical Narrative

This technical narrative and accompanying Figures have been prepared on behalf of station WRKK-FM, Sparta, Tennessee, in support of a Petition for Rule Making to amend 47 C.F.R. Section 73.202(b) to reallocate channel 288 A at Sparta, Tennessee to channel 287 A at Morrison, Tennessee.

As the requested change is mutually exclusive with the channel's current allotment, Petitioner invokes the provisions of Section 1.420(i).

The following is a summary of the merits of this reallocation proposal:

- The community of Morrison, Tennessee (2000 Census population 684 persons) will be provided with its first local aural transmission service.
- The community of Sparta, Tennessee (2000 Census population 4,599 persons) will continue to have local aural service from two radio stations.
- The proposed channel 287 class A allotment site at Morrison, Tennessee satisfies the Commission's allocations spacing rules.¹

¹ Proposed allotment coordinates are 35° 37' 27" North, 85° 53' 37" West. See this Exhibit under the heading "Compliance With FCC Rules" for details on allocations considerations with respect to this site. Also see Figure 1 accompanying this Exhibit for the allocations spacing study.

- The channel 288 60 dbu loss area is well served by a number of radio services'.

Table of Figures Accompanying this Exhibit

Figure 1	Allocations Spacing Study for Channel 287 A at Morrison, Tennessee.
Figure 2	WRKK-FM Channel 288 vs. Channel 287 60 dbu Gain and Loss Areas
Figure 3	Depiction of Services to WRKK-FM 60 dbu loss area
Figure 4	Tabulation of Services to WRKK-FM 60 dbu loss area
Figure 5	WRKK-FM 288 Present and Proposed 70 dbu Service Contours

² See Figures 3 and 4.

Proposed Change in the FM Table of Allotments

Sparta is located in White County, Tennessee, and has a 2000 U.S. Census population of 4,599 persons. Under this proposal, Sparta will continue to receive local aural radio service from the following stations:

- WTZX (AM)
- WSMT (**AM**)

Morrison, Tennessee is located in Warren County, Tennessee, and has a 2000 U.S. Census population of 684 persons. Morrison has no local FM or **AM** aural broadcast service and, therefore, Petitioner's proposal would bring a first local aural broadcast service to Morrison.

Accordingly, Petitioner requests modification of the FM allocation table as follows:

City	<u>Present</u>	<u>Proposed</u>
Sparta, TN	288A	- ³
Morrison, TN	-	287A

Compliance With FCC Rules

The attached Figure 1 is a tabulation of required separations pertinent to use of channel 287 A at Morrison, Tennessee. The reference site complies with the Commission's minimum distance separations contained in Section 73.207 of the FCC's rules to all existing, authorized and proposed stations and allotments, with the exception of the existing channel 288 class A allotment at Sparta, Tennessee, for which this proposal is a mutually exclusive substitute.

Operation from the channel 287 reference site proposed herein will provide the requisite city grade (70 dbu) signal to all of Morrison.⁴ Figure 5 is a map which was developed using the 2000 U.S. Census Topologically

³ **AM** stations WTZX 860 kHz and WSMT 1050 kHz will continue to provide service to Sparta, TN.

⁴ See **Figure 5** herein.

Integrated Geographic Encoding and Referencing (TIGER) Line files which depicts the city grade coverage (70 dbu) contours based on class A facilities (ERP 6 kW/HAAT 100 meters) at the proposed allotment site. As shown, all (100%) of Morrison is located within the 70 dBu City Grade contour. Morrison is located 3.3 kilometers from the proposed WRKK-FM channel 287 allotment site.

Urbanized Area Considerations

The WRKK-FM 70 dbu contour currently encompasses no Urbanized Area, nor will the proposed 70 dbu contour encompass any Urbanized Area.⁵

60 dbu Gain and Loss Areas

As determined using the Flat Earth model generally accepted by the Commission for allocations proceedings, there are currently 42,762 persons residing within the WRKK-FM (FM) channel 288 60 dbu contour. There will be 73,493 persons residing within the proposed WRKK-FM 287 60 dbu contour. 2,753 persons currently residing within the WRKK-FM 60 dbu contour will continue to receive service under this proposal. 40,009 persons currently residing within the WRKK-FM 60 dbu contour will lose service. 70,740 persons will gain new service within the proposed WRKK-FM 60 dbu contour. See Figure 2.

A summary of the 60 dbu area and population gains and losses resulting from this proposal is tabulated below:

WRKK-FM 60 dbu Gain and Loss		
	Area	Persons
Proposed	2,460	73,493
Overlap	246	2,753
Gain	2,214	70,740
Existing	2,460	42,762
Overlap	246	2,753
LOSS	2,214	40,009
Total gain (loss):		30,731

⁵ See Figure 5.

The 60 dbu loss area related to the reallocation of channel 288 at Sparta to channel 287 at Morrison is well served by many aural services. See Figures 3 and 4.

Coverage Contours

The WRKK-FM predicted coverage contours provided with this Exhibit were calculated in accordance with the provisions of 47 C.F.R. Section 73.313, except that, in accordance with current FCC practice, uniform terrain was assumed in all directions.

Population and Area

The population within the FM primary service contour (1 mV/m) was calculated using a computer program that utilizes the 2000 U.S. Census database of "population centroids". The program adds the populations of those U.S. Census designated areas whose centroid lies within each service area.

Conclusion

Channel 288 can be reallocated from Sparta, Tennessee to channel 287 at Morrison, Tennessee, in compliance with all applicable Commission rules. The community of Morrison, Tennessee would be provided with a first local aural transmission service, and the community of Sparta, Tennessee will continue to have local aural service. No service will be lost in any underserved area⁶ and no new underserved areas will be created as a result of this proposal. Therefore, Petitioner requests the reallocation of channel 288 from Sparta, Tennessee to channel 287 at Morrison, Tennessee be granted accordingly.

Respectfully submitted,

⁶ Defined as an area receiving service from less than five aural broadcast services. In the case of this proposal, the 60 dbu loss areas will continue to receive 60 dbu service from multiple sources, local and distant ... see Figures 3 and 4.

A computer guy production

Kevin Rutherford writes in the current issue of Firm Foundation (Feb. '99) of a deplorable situation in Provincetown, Ma. **The** school board unanimously adopted a seven point plan pushed by the lesbian head of the PTA. Among other things, the plan calls for involvement in the schools by the politically active group, "Parents, Families, and Friends of Lesbians and Gays". This group (PFFLAG) will visit the pre-school class rooms to teach children that a family can be headed by either homosexual or heterosexual parents. Also, the schools are to "search for, hire, and retain a diverse staff, including sexual minorities." The superintendent of schools in Provincetown said, "We are on a trailblazing path...we are going to be a change agent."

Morrison

Church of Christ

History - Morrison's Firm Foundation

The Morrison Church of Christ is built upon a firm foundation. In the area of Vervilla, in Warren County, around 1805, a group of religious people of different faiths were without a religious leader and simply turned to the Bible for their guide. By 1818 they were worshiping as one body under the name of "The Church of Christ of Philadelphia." In 1830 they erected a building in which to worship. The "Old Philadelphia Meeting House," as it is called today, is possibly one of the oldest Churches of Christ in this county. It is from this band of Christians that the Morrison Church originated. The brethren could see the need for congregations in Viola and Morrison. So in 1895 a one room frame building was erected in Morrison, Tennessee with a foundation so strong that today, even though the building is gone, the cornerstone is still there. Yes, Christ is the cornerstone for the Church at Morrison. The building may be gone, but the spiritual body of Christ continues to worship over 100 years later. The Morrison Church still believes in the same Lord, faith, and baptism that was preached on the day of Pentecost.

The Morrison Church has a history of which it is very proud. However, as is the case with all congregations, there have been many peaks and valleys. The years prior to 1920 were a trying time for the Church because of divisions over doctrinal issues. However, Morrison not only survived but

thrived. In 1914, the congregation erected a new building out of concrete brick. This firmly built structure still stands. and the

firmly committed Christians that worship there were striving to maintain a holy Church without blemish.

In talking with the older people of the congregation, one can sense the fond memories of worshipping in that beautiful old building. But it isn't the building

that people remember most. It ~~is~~ the memory of
closeness and genuine love that members had to

History - Morrison's Firm Foundation

The Morrison Church of Christ is built upon a firm foundation. In the area of Vervilla, in Warren County, around 1805, a group of religious people of different faiths were without a religious leader and simply turned to the Bible for their guide. By 1818 they were worshipping as one body under the name of "The Church of Christ of Philadelphia." In 1830 they erected a building in which to worship. The "Old Philadelphia Meeting House," as it is called today, is possibly one of the oldest Churches of Christ in this county. It is from this band of Christians that the Morrison Church originated. The brethren could see the need for congregations in Viola and Morrison. So in 1895 a one room frame building was erected in Morrison, Tennessee with a foundation so strong that today, even though the building is gone, the cornerstone is still there. Yes, Christ is the cornerstone for the Church at Morrison. The building may be gone, but the spiritual body of Christ continues to worship over 100 years later. The Morrison Church still believes in the same Lord, faith, and baptism that was preached on the day of Pentecost.

The Morrison Church has a history of which it is very proud.

However, as is the case with all congregations, there have been many peaks and valleys. The years prior to 1920 were a trying time for the Church because of

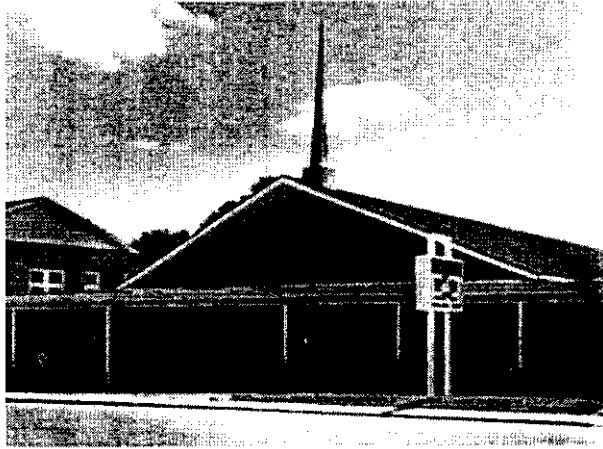

doctrinal issues. However, Morrison not only survived but thrived. In 1914, the congregation erected a new building out of concrete brick. This firmly

built structure still stands, and the firmly committed Christians that worship there were striving to maintain a holy Church without blemish.

In talking with the older people of the congregation, one can sense the fond memories of worshipping in that beautiful old building. But it isn't the building that people remember most. It is

the memory of closeness and genuine love that members had for one another. The fathers and mothers taught their children about Christ. This is exemplified by the fact that today their children and grandchildren are active members and leaders of the Morrison congregation and other congregations.

Because of growth in attendance, by 1964 the need arose for yet a larger building to be erected. many religious debates filled the new building to capacity. In February of 1983, Morrison began hosting an annual singing. The Morrison Church is recognized by the brotherhood as having outstanding singing. In most years, there has been standing room only at this event.

In recent years attendance has continued to grow. Because of the enthusiasm, leadership, and preaching sound doctrine, many souls have been added to the Church and others restored to their first love, Christ. The firm foundation and cornerstone of the Morrison Church will continue to stand. Our prayer is that we will always be what God wants **us** to be which **He** tells us through **His** Word. Thus our hope is that of the first century Christians, victory in Jesus Christ our Lord.
